TRANSPORT

Transport is a very important aspect when buying wine.

Below you have a diagram with transport costs per bottle divided by number of bottles and destination countries.

The bottle is a unit of measurement, but it does not mean that you cannot buy other sizes such as magnum or double magnum. If you buy different sizes, bottles are considered multiple sizes of 1 bottle.

Example: the magnum occupies the space of 2 bottles, the double magnum of 4.

Prices are fixed and guaranteed, in case of variations or different conditions, the correct transport costs will be communicated to you immediately after acceptance of the order. If the variation is NOT to your liking the order without costs and penalties.

If you cannot find your country or the number of bottles you wish to ship, please do not hesitate to contact us.

We do not have a single shipping partner, but several carriers suitable for all kinds of needs, quantities, times and countries.

For your safety, all our shipments are made by absolutely reliable and recognized couriers.

Deliveries are made every day except Saturday and Sunday.

To ensure that the products arrive at their destination in the best conditions and directly to your home, we have chosen only new generation high strength packaging. They are patented and specially designed to guarantee maximum reliability and safety during the delicate phase of transport.

The items ordered by you will be delivered to you as soon as possible.

Delivery times are variable and depend on many factors.

Note that the wine travels quickly from Italy to other countries, by plane and express. Once they arrived in a foreign country, importers wait for customs controls sometimes very fast and sometimes slower. During the waiting periods the wine stays inside a warehouse, safe and in the best conditions.

After customs, the couriers provides door-to-door delivery. Each shipment has a tracking number and is insured.

In Italy, of course, the procedures are faster.

When you receive the goods, verify the order number and package(s) delivered corresponds to what you ordered and that nothing has been opened, tampered with or ruined in some way. After positive verification sign the courier's receipt and collect the parcel(s). If you receive damaged items, collect only the intact ones and return the damaged ones to the sender. If you run out of damaged products, we will contact you to find a solution.

When you receive the shipment, after the external check, open the box and check the wine inside. If something is missing or if there is a wrong label, report it to us immediately. After 5 days we are unable to work out a solution on a shipping issue.

In case of errors, we will contact you to find a solution.

ALL WINES ARE PRESERVED AND STORED 24-HOURS A DAY, 365DAYS A YEAR, IN OUR TEMPERATURE-CONTROLLED CELLAR, WITH OPTIMAL MOISTURE.

In accordance with Legislative Decree no. 185 of 22 May 1999, our supply obligation is considered fulfilled when the goods are taken over by the carrier or consignee.

La Vite Turchese cannot be held responsible for damages suffered by the Customer due to delays in delivery not due to circumstances foreseeable by the parties at the time of sending the Order Confirmation.
